Tim

I will not be able to join the group for the Flagstaff meeting on July 25, 2005 (my misfortune).

My report is as follows :

The standardization committee for the Superior Court continues to meet and make progress. We have completed the review the criminal codes so that AGAVE system design and programming work for this module can continue on an uninterruptible basis. We are about 66% complete with the civil case category. We continue to meet regularly except we will meet only once in July due to vacations. The AOC group assigned to the project is a strong asset to the working committee. The Clerk's staff and Court Admin staff also make strong contributions.

The financial systems for the Maricopa Superior Court are well underway. We are working with our contractor for the county funded new cash receipting system. We expect by the first week of August to have a completed project plan with firm dates.

The Juvenile Court financials is also making progress. We are building upon the work of the Justice Courts (others will report on this progress). The AOC has, at our request, initiated a priority of payments group work to examine the Juvenile payment priorities which have certain uniqueness to this case type. We expect that once the payment priorities are clarified that our work plan can be finalized.

If you have any specific questions, please let me know.
